

INFORMATION ASSURANCE/CYBER SECURITY

Now more than ever, your enterprise security environment faces visible and invisible internal and external threats. Some exposure risks are related to users, some relate to business processes and non-compliance, and some are Information Technology-based. Ignore one and you're bound to maximize your risk exposure—by attack or by accident. Which do you tackle first? How do you prioritize? At IntelliDyne, our expert team of security management consultants knows that only a holistic Information Security approach that accounts for all factors can effectively help protect your organization in cyberspace.

Every IntelliDyne cyber security solution is designed from the ground-up to meet your business goals. From assessment to design to full deployment, IntelliDyne delivers end-to-end secure content management, intrusion detection, automated monitoring, encryption, and authentication tools. Most importantly, we know that your goal is not just to secure your enterprise; it's to ensure your program securely achieves its operational mission.

When change is the only constant, IntelliDyne delivers results to our clients with agility and expertise that are second to none. Our DNA is made up of a unique blend of attributes, creating a full client experience with predictable outcomes. Every time.

We advise, develop, and execute effective solutions in Information Assurance/Cyber Security, Cloud Computing, Application Development and Mobile Computing, Analytics, Business Process Management, Data Center Consolidation, Enterprise Collaboration and Enterprise Infrastructure Management.

Clients Demand. IntelliDyne Delivers.

“Just wanted to convey my sincere appreciation for your tremendous efforts to achieve certification and accreditation for [our] project. ... Knowing that [this project has] substantial visibility within DoD, VA, HHS, Congressionally, and within the White House made it a project that required our best subject matter experts who were agile enough to handle shifting timelines, requirements, and project members. Your calm, professional leadership and insightful recommendations always resulted in identifying and guiding the most efficient yet solid approach to keep the project on track. I look forward to hearing your advice to improve C&A for this new distributed development model and again THANK YOU for your exceptional leadership and expertise that were critical to the successful on time implementation of this highest priority national healthcare initiative.”
