# HOW TO BUILD A CHATBOT

## Using Qlik's Natural Language API

## STEP 1:
## START A NEW NODEJS PROJECT

Develop your chatbot using the Natural Language API from Qlik.

## STEP 2:
## DEFINE THE USER INTERFACE

Keep the chatbot interface simple in order to communicate with the cognitive engine and receive appropriate responses.

## STEP 3:
## CONNECT THE API

Use the API to connect to Qlik's cognitive engine.
